

Wesco Data Network Solutions

December 2008

Wesco Data Network Solutions (Wesco DNS) is pleased to announce that we will be providing offsite data backup, retention and archiving beginning in January 2009. Please contact us for more information or visit our website, www.wescodns.net/services/databackup.htm for more information.

We will also be introducing a variety of new services in the coming months of 2009. Please visit our website weekly to see if any new services may be of interest for your business.

As always, we thank you for your support and business.
